Ditulis oleh Indra Halim

hurm its been long time i never visit to kesawan square in medan. kesawan square once are packs with people but know seems very quite and relaxing. i found this better than the crowded time. if you come to medan you will find some of the food stalls really line up for u to choose. and i tell u frankly that you wont be DISSAPOINTEED hehe…medan is food city.

and the next review is hok ciu fish ball. if you go to kesawan square and sit in any corner just grab their menu with more than 200 items to choose and i happen to choose hok ciu fish ball since medan recently are quite cold. probably indonesia encounter changing climate to rainy season.

This hok chiu fish balls are very soft n not that FISHY SMELL hehe..good fish ball should be like chicken ball. that is my thinking..n the best of this hok ciu fish ball is inside the fish ball they have some little portion of meat to eat too…aih remembering that make me want to eat something soupy for my breakfast now…eniwei if u find this medan bit cold i suggest u go try this fishball.
